A Safe Bath is a Beautiful Bath

While bath safety is often only considered for older adults, it should be for all stages of life. From babies to boomers, Moen® offers a full range of products to make the bathroom both safe and stylish, seamlessly blending into decor and surroundings.

SHOWERING

Water flow is reduced at the touch of a button through innovative pause control on most Moen handshowers. Many Moen handshowers also feature Magnetix®, an innovative magnetic docking system that provides easier access for those with limited mobility.

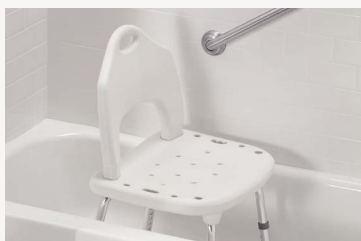

Reference the Magnetix handshower section for product details beginning on page 62.

GRAB BARS

Moen's line of grab bars are designed to reduce the risk of falls in the tub or shower, while blending in seamlessly with varying styles of bathroom decor. Some grab bars are even available in integrated designs, giving your shower additional functionality.

Visit moen.com for additional information and product offerings.

TUB/SHOWER SAFETY

Moen seats, chairs and transfer benches make showering safer and more relaxing. Our products not only provide stability, but also offer a host of convenient features that will make every shower more safe, pleasant, and comfortable for all ages.

Visit moen.com for additional information and product offerings.

POWERCLEAN™

Power Clean technology provides 50% more spray power versus most Moen pulldown and pullout faucets without the Power Clean technology, while containing splashing and minimizing mess. Now, users can clean dishes faster while reducing the amount of residual water in and around the sink. Greater force is faster cleanup with less water used.
